Item #2 – ***Public Meeting on the Taylorsville Drainage Project: Update & Recommendations – DLZ (Engineers were present to explain the project and answer questions concerning the work to be performed)***

Mayor Pay mentioned that there were sign-in sheets for everyone to use. Michael Hesse and Rhonda Collins with DLZ gave an overview of the project along with the funding of the project, and discussed the permits received from the EPA. There was concern from some participants concerning the added volume of water to be added to the catch basins that are already having trouble handling the amount of water required to be removed from the city using the pumps and drains. There were also questions regarding re-routing water from the top of townhill to the Salt River prior to it entering the city. Several other attendees asked questions.

Mr. Hesse then directed attendees to visit the tables set up to address specific construction locations, so as to discuss their specific property questions. Mr. Hesse, Ms. Collins and Bryan Kirby, the City's grant writer working on Easements, met individually with residents and property owners to address their concerns.

These discussions continued until approximately 8:00 p.m.

**ADJOURN MEETING**
